

## **2022 Game Director Representative Report**

The role of the game director representative is to act as a liaison between the Board, you, the membership, and other Club Directors on all matters pertaining to the game. It is also this person's role to advise the membership and fellow directors on points of ACBL regulations, policies, and procedures.

Because the Club did not meet for in-person play over the past year, there is nothing to report. Let's keep up the hope that COVID can be brought to an end, so that we can return to in-person play as soon as possible.

Respectfully submitted,

Carol Sulpher
